

Toby Tracheasaurus™ & Friends

Coloring & Activity Book

Passy Muir®

Toby Tracheasaurus™ & Friends

Coloring & Activity Book

We at Passy-Muir believe that communication is the essence of the human spirit; it is essential to individual rights and dignity. Tracheostomized children should be provided with the same opportunities as others to allow them to develop communication skills. Passy-Muir has created this activity book to provide parents and therapists with a fun way to help children voice and exhale orally when using a Passy-Muir® Valve. Many of the therapeutic activities referred to in this book may be performed under supervision with toys that are readily available at most stores. It is our sincerest hope that this book will provide many hours of rewarding activity and will be enjoyed by children and their families.
