

Little Patients, Big Voices: Pediatric No-Leak Speaking Valve Assessment and Use

Presented by Passy Muir®

Friday, June 12th, 2026, 12:30 p.m. – 3:30 p.m. CT, Pre-seminar Special Event Workshop (see next page for details)

Saturday, June 13th, 2026, 9:00 a.m. – 5:00 p.m. CT, All-day Seminar

Bethany Children’s Health Center, Hobby Lobby 1, 6800 NW 39th Expressway, Bethany, OK 73008

Imagine restoring a patient’s voice and improving their quality of life — even while they are on a ventilator. In this interactive, hands-on seminar, you’ll explore pediatric considerations as you progress from foundational knowledge of tracheostomy and airway management to advanced assessment, placement, and troubleshooting of no-leak speaking valves. Special emphasis will be placed on pediatric anatomy and physiology, developmental considerations, family-centered care, and age-appropriate communication strategies. Through lectures, demonstrations, case studies, and mock assessments—including pediatric scenarios—you’ll learn to confidently assess, implement, and optimize valve use for pediatric patients, both with and without mechanical ventilation. By the end, you’ll be equipped with the clinical skills and strategies to enhance communication, airway safety, and patient outcomes in pediatric practice.

Additional continuing education opportunity for seminar attendees: *Fundamentals: Tracheostomy Tubes to Mechanical Ventilation*

This course is only available to seminar attendees. It is recommended to take this webinar prior to attending the seminar. A link will be sent to all registered attendees approximately two weeks before the seminar. To receive continuing education credit, attendees will complete the course, quiz, and evaluation.

This seminar is designed for:

- Respiratory Therapists
- Speech-Language Pathologists
- Nurses
- Physicians
- Any other healthcare professionals who work with this patient population

Early Bird Registration: \$149 by 5/16/26

Early Bird Seminar & Workshop Combo: \$149 by 5/16/26

Seminar Registration: \$199 after 5/16/26

This seminar is offered for 0.8 ASHA CEUs or 8 CRCE (Intermediate level)

This workshop is offered for 0.3 ASHA CEUs or 3 CRCE (Intermediate level)

Passy-Muir, Inc.

Passy-Muir, Inc. is an approved provider of continuing education through AACRC and the California Board of Nursing. This course is offered for 8 contact hours of continuing education.

AGENDA

9:00 – 10:00	Assessment and Placement with Demonstration and Case Studies - Non-Vent
10:00 – 11:30	Breakout Sessions - Trach Tubes, Cuff Management, and Mock Assessment
11:30 – 12:00	Troubleshooting and Treatment with Case Study
12:00 – 1:00	Lunch & Learn: Discussion and Panel/Round Table
1:00 – 2:15	Basics of Ventilator Application of the No-leak Valve with Case Studies
2:15 – 3:45	Breakout Sessions - Ventilator Application, Parts and Pieces, and Mock Assessment
3:45 – 4:45	Trachlore, Barriers and More
4:45 – 5:00	Summary Discussion, Q&A, and Adjournment

This seminar is offered for up to
11 LIVE
+ 1 recorded
hours of continuing education credits

**Optional
Workshop**
Limited Seating

Pre-seminar Workshop:

Building Effective Tracheostomy Teams: A Guide to Interdisciplinary Implementation

Friday, June 12th, 2026, 12:30 p.m. – 3:30 p.m. CT

Offered for 3 contact hours, 0.3 ASHA CEUs, 3 CRCEs

Are you ready to transform tracheostomy care at your hospital? Through this workshop, discover how building an interdisciplinary tracheostomy team can streamline care, reduce complications, and improve patient outcomes. In this concise, practical course, you'll learn how to assemble the right team, establish effective protocols, and implement evidence-based strategies that make a measurable difference. Gain the confidence to lead change, overcome barriers, and deliver safer, more consistent tracheostomy management for your patients. **Limited seating! Be sure to register using the Early Bird Seminar & Workshop Combo ticket to reserve your seat.**

AGENDA

- 12:30 – 1:30 **Core roles and foundations of tracheostomy teams, defining a team and the benefits to tracheostomy management, including valve use**
- 1:30 – 2:30 **Steps to developing and implementing a hospital-based tracheostomy team**
- 2:30 – 3:30 **Panel discussion and tour by the host facility's tracheostomy team**

PASSY MUIR SEMINARS & WORKSHOPS ARE HOSTED BY OUR EXPERT CLINICIANS

Kristin King, PhD, CCC-SLP

With over 25 years of experience in medical settings, academia, and industry, Dr. King brings a unique perspective to the care of patients with medical diagnoses. Her experience included a clinical focus on critical care and trauma, with an emphasis on TBI and trach/vent patients. As a professor, she conducted research and published in peer-reviewed journals on TBI and swallowing disorders. She continues her career by working in industry to improve patient outcomes through the development of multi-media education and participating in product development and regulatory requirements for medical devices. She is the host of the CAM Podcast for Passy Muir, editor of Aerodigestive Health by Passy Muir, and contributes regularly at the state, national, and international levels for both speaking and clinical papers. She also is co-editor of the book *Tracheostomy and Ventilator Dependence in Adults and Children: Learning Through Case Studies*.

Speaker Disclosure Information: Kristin King is the full-time Vice President of Clinical Education and Research for Passy Muir. She has no relevant non-financial relationship to disclose.

Gabriella Ortiz, BSRT, RCP

Gabriela Ortiz earned her Respiratory Care Practitioner license in 2006. She has extensive experience managing patients at different stages of care, including acute, sub-acute, sleep therapy, and homecare. As the Respiratory Clinical Director and General Manager at a respiratory care provider, Gabriela managed all company operations, including patient assessment and case management for pediatric and adult patient populations. Through her clinical knowledge, Gabriela advanced into clinical training and sales for critical care ventilation products for the ICU and PICU within acute and subacute hospitals. Gabriela combines her clinical experiences to support others through education, and she is an invited speaker for educational institutions, state and national conferences, Better Breather's Club, and ALS support groups. She has authored and co-authored multiple clinical papers, including peer-reviewed, on respiratory topics such as the progression of ALS, effects of a tracheostomy in neonates, and respiratory care plans for patients in homecare. Gabriela is currently a full-time Clinical Specialist with Passy-Muir, Inc.

Speaker Disclosure Information: Gabriella Ortiz is a full-time clinical specialist for Passy Muir. She has no relevant non-financial relationship to disclose.

Content Disclosure Information: During this course, any reference to speaking valves in this presentation will focus exclusively on the no-leak, bias-closed position Passy Muir® Valve and will include little or no information on similar products.
